

E-procurement in the new Public Procurement Directives

MePAIE 2014 – V edizione
Cremona, 27 February 2014

*Tudor-Trestieni Ion
e-procurement and economic analysis of
procurement markets*

Public procurement is about 20% of EU's GDP

Total expenditure by general government and utilities on works, goods and services, in Billion €

Public procurement Directives cover about 20% of total procurement

- About **425 billion euros** covered by the Directives (above certain thresholds)
- 4 Public Procurement Directives:
 - Directive replacing 2004/18/EC (Public sector)
 - Directive replacing 2004/17/EC (Utilities)
 - Directive 2009/81/EC (Defence and Security)
 - new Directive on concessions
- Main focus of presentation: Directive replacing 2004/18/EC

Objectives of the Reform

**1. Simpler /
more flexible
procedures**

2. Strategic use

**3. Better access
(SMEs, cross-
border trade)**

**4. Sound
procedures**

5. Governance / Professionalisation of procurement

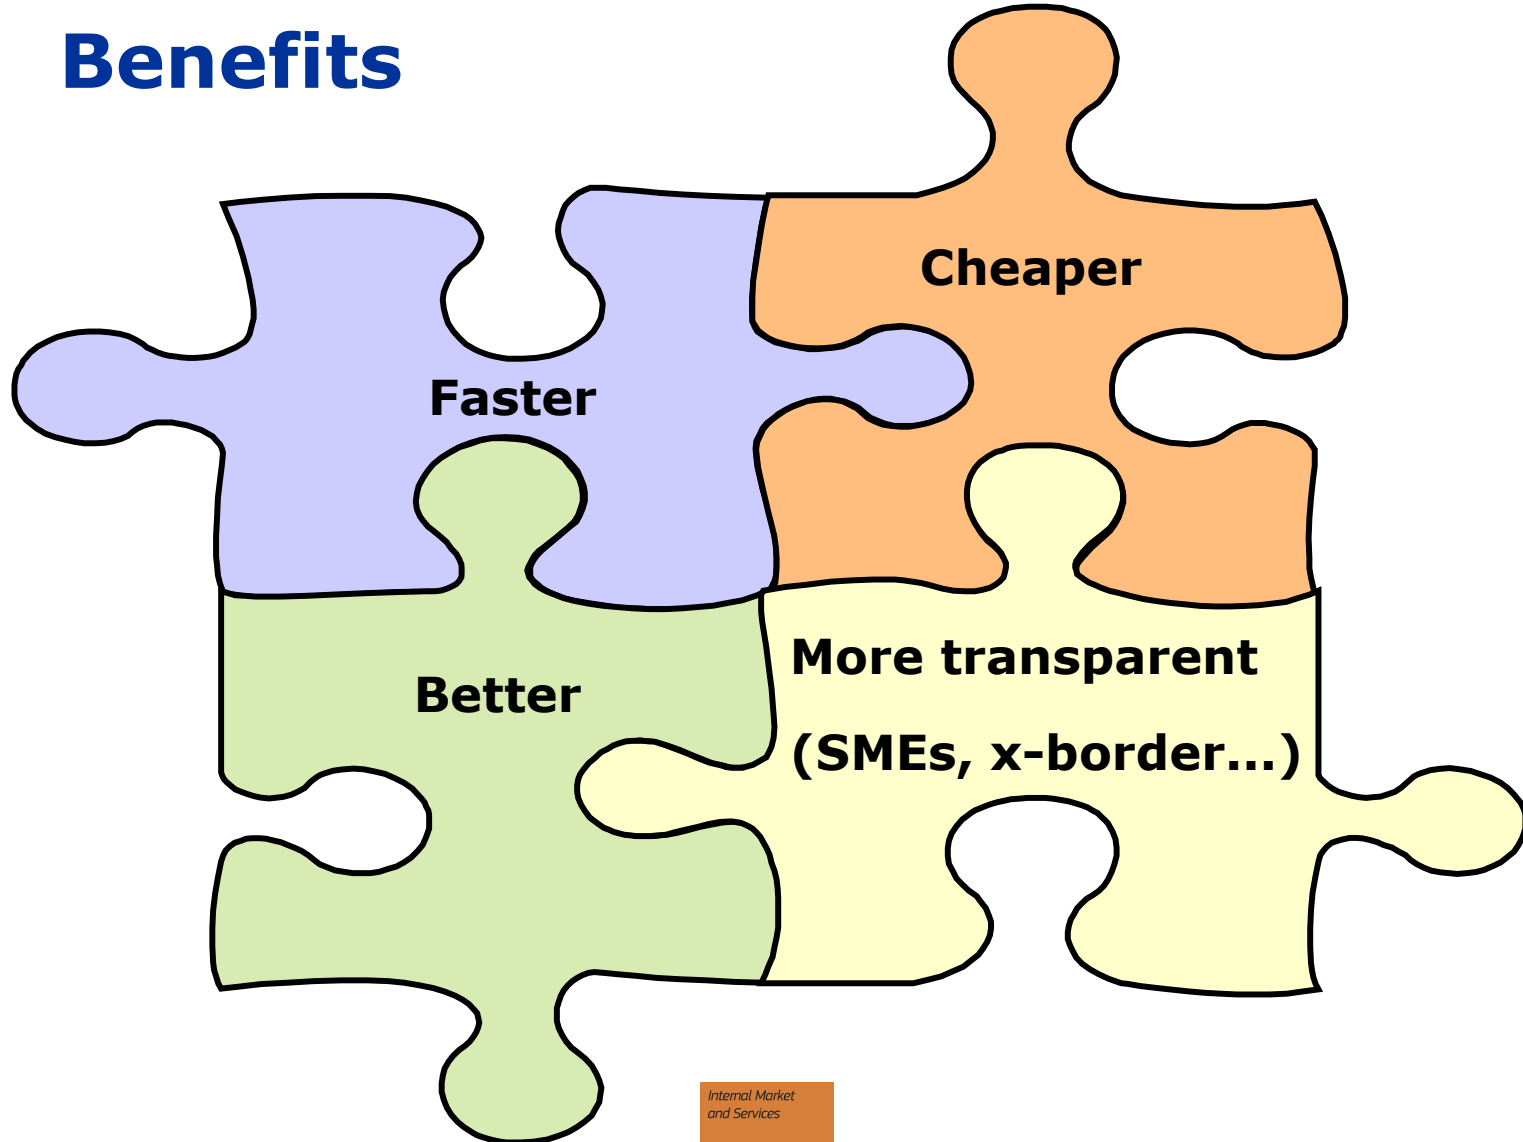

E-Procurement

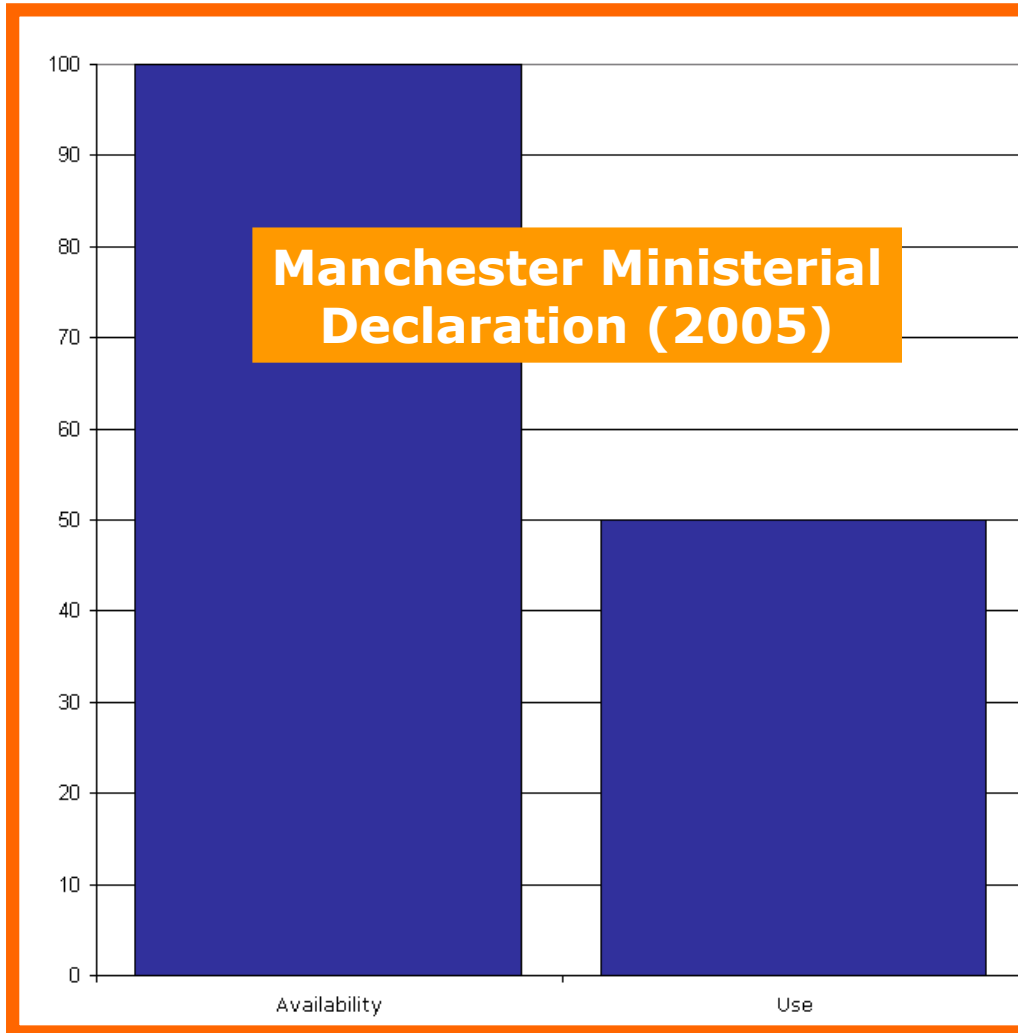

Challenges... Some.

Opportunities... Huge!

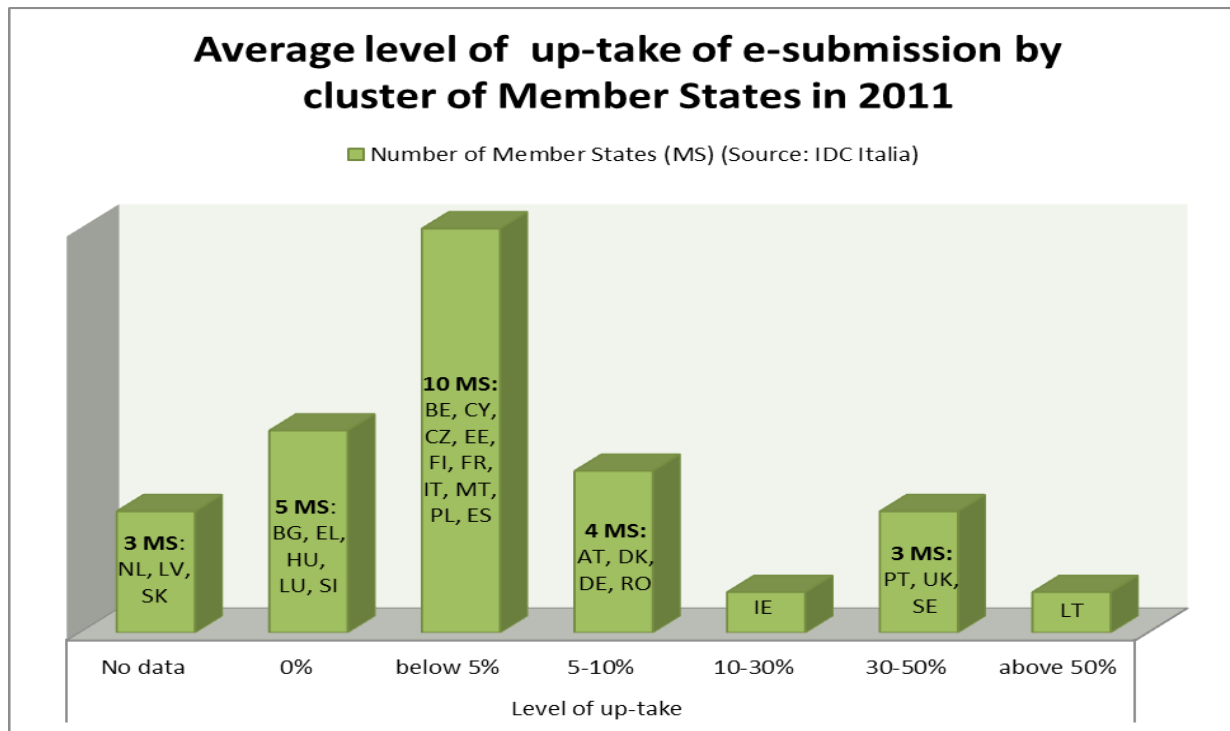

Benefits

Where are we today?

E-procurement up-take per country

Gradual transition to mandatory eProcurement

Transposition (March 2016)

CPBs (March 2017)

All public buyers (September 2018)

E-signature

- ❑ MS and CA to carry out a risk assessment
 - High level not necessary for access to tender documents, notification, etc

- ❑ Mutual recognition of e-signatures on the Trusted Lists

- ❑ Other formats: document carrier include link with validation possibilities (CA to validate online, free of charge)

Tools/devices, delegated acts

- ❑ Public works: MS may require the use of specific tools (building information modelling tools) but CA to offer alternative means of access until become generally available

- ❑ CAs to offer alternative means of access: keep the tool open!
 - If not, provisional tokens
 - Alternative channels for the electronic submission of tenders.

- ❑ COM empowered to adopt delegated acts to address interoperability across the EU (technical formats/messaging):

e-Certis

- ❑ Updating and verification compulsory:
 - ⇒ **MS to constantly keep up-to-date eCertis – Art. 57b(1)**
- ❑ CAs to require *primarily* types of certificates covered by e-Certis
- ❑ Data extension:
 - Language versions of European Single Procurement Document - Art. 57b(3)
 - Official declarations at Art. 57a(2)
 - List of databases: Article 57(4)
- ❑ Time line: **updating: entry into force**
 - Certificates covered by e-Certis: 4.5 ys after

Techniques for electronic procurement (Art. 32-34)

- ❑ Dynamic Purchasing System (DPS): existing procedure streamlined
 - restricted procedure
 - no indicative tenders, no simplified notices, no max. duration
 - evaluation: 10 working days

- ❑ Electronic auction: essentially unchanged

- ❑ E-catalogue: standardised presentation of tenders, specific for a given procedure

Other Directives

- ❑ Concessions Directive: "light regime"
 - No mandatory use of e-submission... but
 - E-notification mandatory
 - E-Access still applies (with some restrictions)
 - General principles (generally available, non-discriminatory, not restricting access to the procedure)

- ❑ Utilities Directive: same as for classical Directive (except for e-Certis)

Directive on e-invoicing in public procurement

Key elements:

- Scope: PP invoices only
- Directive mandates standardisation bodies to draw up a new European e-invoicing standard + short list of syntaxes + syntaxe bindings
- Buyers obliged to accept electronic invoices compliant with the new standard
- The new standard will:
 - build on existing specifications developed by CEN and UN/CEFACT
 - not replace existing e-invoicing standards – national systems can continue to be used
- Transposition: 1,5 years after standard (possibility to postpone for regional+ local for extra 1 year). Standard to be ready in 3 years.
